

**Ivana Zuskinová**

**Short CV**

University: Tomas Bata University in Zlín, Czech rep.

Department: The Faculty of Multimedia Communications

Course of studies: Visual arts - Glass design

After School of Applied Arts in Ružomberok, Slovakia, department Publicity Art Design I started to study on Tomas Bata University Fine Arts especially Glass Design. After an internship in Ecole Supérieure d'Art et Design de Saint-Etienne, France - Art and Design department, I developed a specific interest in conceptual and multimedia interactive research. The fact that I study glass design, glass is not dominant in my work. The main point of work is concept and story. I project my skills into various digital formats that grow along with larger projects and often serve as sketches, manual skill exercises, or extensions of certain concepts. My blog is one of the most important part of my work, which means something like digital online laboratory ([www.morskapanda.tumblr.com](http://www.morskapanda.tumblr.com)) where can I applied some parts from projects in digital forms (for example sketches, videos, gif,...).
